

Case	Age	Sex	Duration of disease (years)	Site of origin	Histological features	Immunohistochemical features	Molecular features	Outcome
1	60	M	1	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
2	55	F	2	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
3	65	M	3	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
4	70	F	4	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
5	68	M	5	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
6	72	F	6	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
7	63	M	7	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
8	67	F	8	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
9	71	M	9	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
10	69	F	10	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
11	64	M	11	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
12	73	F	12	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
13	66	M	13	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
14	74	F	14	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
15	62	M	15	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
16	76	F	16	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
17	61	M	17	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
18	77	F	18	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
19	60	M	19	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
20	78	F	20	Small intestine	Well-differentiated neuroendocrine tumor	CD56, synaptophysin, chromogranin	None	Complete remission
